### Biological Sciences Seminar Series

#### Fall 2015

<table>
<thead>
<tr>
<th>Date</th>
<th>Speaker</th>
<th>Affiliation</th>
<th>Topic</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sept 11</td>
<td>Amy Braccia, PhD</td>
<td>EKU, Biological Sciences</td>
<td>Department of Biology Meet the Faculty</td>
</tr>
<tr>
<td>Sept 18</td>
<td>Chris Mayhew, PhD</td>
<td>Cincinnati Children’s Hospital Medical Center</td>
<td>Pluripotent Stem Cell-Derived Intestinal Organoids: a Novel Tool for Modeling Human Intestinal Development, Homeostasis and Disease</td>
</tr>
<tr>
<td>Oct 2</td>
<td>Bryan Makinen, MS</td>
<td>EKU, Environmental Health &amp; Safety</td>
<td>Emergencies 101</td>
</tr>
<tr>
<td>Oct 9</td>
<td>TBD</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Oct 16</td>
<td>Claudia Cotton, PhD</td>
<td>USDA Forest Service</td>
<td>Atmospheric Deposition Effects on Soil Across the Daniel Boone National Forest.</td>
</tr>
<tr>
<td>Oct 23</td>
<td>Corey Brelsfoard, PhD</td>
<td>MosquitoMate, Inc.</td>
<td>Novel Autocidal Approaches to Control Mosquitoes.</td>
</tr>
<tr>
<td>Oct 30</td>
<td>Phillip Bridges, PhD</td>
<td>University of Kentucky</td>
<td>The effects of the source of Se fed to cows/bulls on fertility</td>
</tr>
<tr>
<td>Nov 6</td>
<td>Jeremy Beaulieu, PhD</td>
<td>University of Tennessee, Knoxville</td>
<td>TBD</td>
</tr>
<tr>
<td>Nov 20</td>
<td>Chuck Bell, PhD</td>
<td>University of New Orleans</td>
<td>TBD</td>
</tr>
