

DEPARTMENT OF BIOLOGICAL SCIENCES POLICIES & PROCEDURES

Adopted: May 2018
Last revised: April 2019

PROMOTION AND TENURE

Faculty in the Department of Biological Sciences seeking tenure, promotion to associate professor, or promotion to professor, must use the application form and follow the application procedures outlined in university Policy 4.6.4P and the *EKU Faculty Handbook*. The Department will follow the criteria and procedures pertaining to tenure and promotion outlined by the university (see Appendix 1 for a time-line).

The *EKU Faculty Handbook* stipulates that department policies for tenure and promotion shall state the specific criteria for each of teaching, scholarly/creative activities, and service to be used in the evaluation of faculty for promotion and tenure and how they shall be applied. The *Faculty Handbook* also indicates that, in reviewing all three areas, collegiality¹ shall be considered. The Department of Biological Sciences will use the “Tenure-Track Faculty Annual Report” (Appendix 2A & 2B) as the mechanism for collecting data related to an individual faculty member’s teaching, scholarly/creative activities, and service.

Promotion to Associate Professor

Using the scoring system outlined in the Tenure-Track Faculty Annual Report, the candidate for promotion to associate professor within the Department of Biological Sciences

¹ **Collegiality:** The ability of an individual to interact with colleagues with civility and professional respect; to engage in shared academic and administrative tasks necessary to meet Department, College, and University goals and to work productively with faculty, students, and staff. Collegiality should not be confused with sociability or likability but rather is the professional criterion relating to teaching, scholarly/creative activities, and service (source: ECU Policy 4.6.4P, 2013).

must, in two out of his/her last three years, achieve a minimum average score of 35% in teaching, 15% in Scholarly/Creative activities and 15% in Service, with an overall minimum average of 70%; **and** publish at least one manuscript in a national or international peer-reviewed journal² **or** at least two manuscripts in regional peer-reviewed publications. An article which has been accepted for publication, without further revisions, shall be considered to be a published paper. In multiple-authored manuscripts, the sequence in which the candidate's name appears has no bearing on the article's acceptability. Note: If promotion to Associate Professor has occurred during the tenure probationary period, accomplishments used in support of the promotion application may also be applied to the tenure application.

Tenure

Using the scoring system outlined in the Tenure-Track Faculty Annual Report, the candidate for tenure within the Department of Biological Sciences must hold the rank of Assistant Professor or above **and** in five out of his/her last six years, achieve a minimum average score of 35% in teaching, 15% in Scholarly/Creative activities and 15% in Service, with an overall minimum average of 70%; **and** publish at least two manuscripts in a national or international peer-reviewed journal² **or** at least four manuscripts in regional peer-reviewed publications **or** one manuscript in a national or international peer-reviewed journal AND two manuscripts in regional peer-reviewed publications. An article which has been accepted for publication, without further revisions, shall be considered to be a published paper. In multiple-

²Peer reviewed journals are defined as journals in which articles have been reviewed by experts in the field before the article is published in the journal. The P&T Committee is tasked with determining if a journal is designated as a national or international peer-reviewed journal versus a regional peer-reviewed publication. Faculty may seek confirmation regarding the designation of a journal in advance of submitting an article, and the official determination by the committee will be included as part of the faculty member's annual review.

authored manuscripts, the sequence in which the candidate's name appears has no bearing on the articles acceptability. Once a faculty member has obtained tenure, he/she is no longer required to submit a Tenure-Track Faculty Annual Report; the faculty member will be evaluated using the annual review of tenured faculty process (see Annual Review of Tenured Faculty policy). However, if a faculty member intends to seek promotion beyond the rank held when he/she received tenure, he/she will need to continue to submit a Tenure-Track Faculty Annual Report in order to compile the data required for promotion.

Promotion to Professor

Using the scoring system outlined in the Tenure-Track Faculty Annual Report, the candidate for promotion to full professor within the Department of Biological Sciences must hold the rank of Associate Professor **and** in four out of the last five years, achieve a minimum average score of 40% in teaching, 18% in Scholarly/Creative activities and 18% in Service, with an overall average of 85% **and** publish, since receiving tenure or achieving promotion to associate professor, whichever has occurred most recently, at least two manuscripts in a national or international peer-reviewed journal² **or** at least four manuscripts in regional peer-reviewed publications **or** one manuscript in a national or international peer-reviewed journal AND two manuscripts in regional peer-reviewed publications.. An article which has been accepted for publication, without further revisions, shall be considered to be a published paper. In multiple-authored manuscripts, the sequence in which the candidate's name appears has no bearing on the articles acceptability.

Form to use for reporting activities carried out during the 2018-2019 Academic Year

DEPARTMENT OF BIOLOGICAL SCIENCES TENURE-TRACK FACULTY ANNUAL REPORT

Academic Year _____

I. Teaching Effectiveness (Total Points = 50)

$[(A+B+C)/40] \times 50 = \text{Total Teaching Effectiveness Points}$

A. Student Evaluations (10 pts. max.)

Provide a list of classes you taught for the review period covered by this report AND the average score you received in each class for the eXplorance Blue assessment instrument question, “*Faculty instruction supported the learning goals of this course*”. Since the current maximum score on the eXplorance Blue question is “5.0”, the mean value earned by the faculty member in each course evaluated will be adjusted to a 10-point scale. The final score assigned will be the average of the adjusted scores from all courses evaluated.

B. Peer Evaluations (15 pts. max.)

Please submit any documentation that might aid the advisory committee in its peer review of your teaching. The members of the committee will evaluate the items submitted. Due to the subjective nature of this evaluation, the final rankings will be the average or consensus of members of the Department Promotion and Tenure Committee. You may include any or all of the following documentation: Syllabi and copies of exams, statement on approaches to teaching, the Course/Instructor Feedback Forms (Appendix B) from students’ evaluations, and individual comments in the following categories:

1. Command of subject matter
2. Accomplishment of course objectives
3. Written opinions of alumni or faculty
4. Attitude toward students

C. Professional Growth and Development in area of Teaching/Student Mentoring (15 pts. max.)

1. Curriculum Development (up to 10 pts each).
 - a. Develop a new specialty area (Please list).
 - b. Preparation to teach a new course in your discipline (provide syllabus and evidence of preparation).
2. New techniques and materials (up to 5 pts. each)

- a. Organized or participated in instructional improvement seminars. (Please list and include pertinent documentation).
 - b. Development and use of audiovisual aids for classroom or online learning (Please list and provide documentation).
 - c. Experimented with new teaching technologies (provide examples).
 - d. Varied teaching techniques such as discussion techniques rather than lecturing.
3. Evidence of a planned program of independent reading and study (explain; 2 pts. max.).
4. Faculty Development (provide documentation for each)
- a. Participation in conferences, workshops, etc., related to teaching assignments (2 pts. each)
 - b. Courses taken to improve teaching area (2 pts. each)
 - c. Miscellaneous faculty development (5 pts. max)
5. Supervisory/Guidance
- a. Graduate student supervision
 - 1. Director of completed M.S. thesis as submitted to the Graduate School. (List Names). (5 pts ea.)
 - 2. Director of completed MS non-thesis (3 pts. each)
 - 3. Director of M.S. students actively working towards completion of thesis degree. (List Names). (2 pts. ea.)
 - 4. Director of MS students actively working towards completion on non-thesis degree. (2 pts. ea.)
 - 5. Member of graduate committee while student is actively working towards completion of degree. (List Names). (1 pt. each)
 - a. Supervision of Special Problems (List students and provide copies of final student reports). (2 pt. each)

Research and/or Scholarly Achievement (Total Points = 25)

Maximum set at 45; $[(A+B+C+D)/45] \times 25 = \text{Total Research/Scholarly Points}$
