

EKU Biological Sciences Spring 2013 Seminar Series

DATE	SPEAKER	TOPIC
Jan 18	Dr. Melissa Pilgrim University of South Carolina Upstate	Using stable isotopes to assess variation in reproductive allocation and foraging strategies in snake populations
Jan 25	NO SEMINAR	
Feb 1	Dr. David Weisrock University of Kentucky	Next generation systematics – Cancelled
Feb 8	No Seminar	
Feb 15	Dr. Rachel Santymire Lincoln Park Zoo, Chicago	How Feces Save Species
Feb 20	Dr. Lindsay Calderon EKU Department of Biological Sciences	Deciphering Hypertension: A Study of Arterial Physiology
Feb 22	Dr. Ed Fredrickson EKU Department of Agriculture	Desertification in the Northern Chihuahuan Desert: A Case of Changing Human Values
Mar 1	Dr. Benjamin Freed EKU Department of Anthropology, Sociology, & Social Work	Help! How Two Lemur Species on the Forest Edge Rely on Each Other (and on Humans)
Mar 8	TENTATIVE	
Mar 15	SPRING BREAK	
Mar 22	Josh Jones MS Student EKU Department of Biological Sciences	Negative Effects of Invasive Crayfish on Native Species and Recommendations for Management
Mar 29	Dr. Kelly Watson EKU Department of Geography and Geology	Land-cover Change Associated with Drier Forest Composition in the Apalachicola River Floodplain of Northwest Florida
Apr 5	John Yeiser MS Student EKU Department of Biological Sciences	Habitat Associations of Stream Salamanders Across Multiple Spatial Scales in Central Kentucky Headwater Streams
Apr 12	NO SEMINAR	
Apr 19	Dr. Stephen Richter EKU Department of Biological Sciences	Effects of Historic Biogeography and Current Land Use on Genetics of Gopher Frogs
Apr 26	TBA	
May 4	Dan Ratterman MS Student EKU Department of Biological Sciences	Biotic Assessment of Fish and Macroinvertebrate Communities Relative to Wastewater Treatment and Land Use in Two Central Kentucky Streams

**Please join us at 11:00 for coffee & refreshments.
Seminar begins at 11:15 in Moore 71**
