

EKU Biological Sciences

Spring 2017 Seminar Series

DATE	SPEAKER	TOPIC
Feb 10	Dr. Lindsey Walters Northern Kentucky University	Environmental influences on the reproductive behavior of Carolina chickadees
Feb 24	Justin Michaud MS Candidate, ECU BIOS	Habitat use by wintering passerines in fire-managed forests along the U.S. Gulf Coast
Mar 3	Dr. Michael Godin University of Kentucky	Illuminating plant-virus interactions & S.T.E.M. Education
Mar 10	Dr. Jonathan Malzone EKU Geosciences	Exploring the ecological importance of groundwater surface water interaction
Apr 7	Dr. Gregory Stull University of Michigan	Evolutionary history of a pantropical family (Icacinaceae) inferred from genomic & fossil data
Apr 14	Shelby Fulton MS Candidate, ECU BIOS	Distribution & nutritive quality of Lepidoptera with respect to predatory insectivorous bats
Apr 21	Dr. Bruce Carter Vanderbilt University	Mechanisms regulating neuronal death during development of the nervous system: identification of a retrograde degenerative signal
Apr 28	Dr. Bill Peterman Ohio State University	How environmental gradients shape the life history & spatial ecology of a terrestrial salamander (BOGS Student's Choice Speaker)
May 5	Dr. Edward Shilling University of Tennessee	Good things come in threes: Trillium systematics & evolution

**Please join us at 11:00 for coffee & refreshments.
Seminar begins at 11:15 in Moore 123**
