

# EKU Biological Sciences Spring 2017 Seminar Series

<b>Feb 10</b>	<b>Dr. Lindsey Walters</b> Northern Kentucky Univ.	Environmental influences on the reproductive behavior of Carolina chickadees
<b>Feb 24</b>	<b>Justin Michaud</b> MS Candidate, EKU BIOS	Habitat use by wintering passerines in fire-managed forests along the U.S. Gulf Coast
<b>Mar 3</b>	<b>Dr. Michael Goodin</b> Univ. of Kentucky	Illuminating plant-virus interactions & S.T.E.M. Education
<b>Mar 10</b>	<b>Dr. Jonathan Malzone</b> EKU Geosciences	Exploring the ecological importance of groundwater surface water interaction
<b>Apr 7</b>	<b>Dr. Gregory Stull</b> Univ. of Michigan	Evolutionary history of a pantropical family (Icacaceae) inferred from genomic & fossil data
<b>Apr 14</b>	<b>Shelby Fulton</b> MS Candidate, EKU BIOS	Distribution & nutritive quality of Lepidoptera with respect to predatory insectivorous bats
<b>Apr 21</b>	<b>Dr. Bruce Carter</b> Vanderbilt Univ.	Mechanisms regulating neuronal death during development of the nervous system: identification of a retrograde degenerative signal
<b>Apr 28</b>	<b>Dr. Bill Peterman</b> Ohio State University	How environmental gradients shape the life history & spatial ecology of a terrestrial salamander (BOGS Student's Choice Speaker)
<b>May 5</b>	<b>Dr. Edward Shilling</b> Univ. of Tennessee	Good things come in threes: Trillium systematics & evolution

Please join us at 11:00 for coffee & refreshments.  
Seminar begins at 11:15 in Moore 123.
