

EKU Biological Sciences

Spring 2020 Seminar Series

Jan 31	Dr. Katelyn Kesheimer Auburn University	Entomopathogenic nematodes: Biological control potential across regions and crops
Feb 7	Dr. Chuck Lydeard Morehead State Univ.	Hidden Diversity in Plain Sight: Delimiting Species Boundaries in Freshwater Mollusks
Feb 14	Open – Candidate seminar	Cell/Molecular Biologist Faculty Position
Feb 21	Open – Candidate seminar	Cell/Molecular Biologist Faculty Position
Feb 28	Dr. Sarah Emery University of Louisville	Ecological effects of fungal symbionts associated with a dune-building grass species in a long-term global change experiment
Mar 6	Dr. Guenter Schuster EKU Foundation Professor	Separating Beauty from the Beast: Potential Significance of Crayfish Color Patterns
Mar 20	Dr. Erin Strome Northern Kentucky Univ	Using Yeast to Identify Genes Involved in Cancer Related Phenotypes
Mar 27	Dr. Mike Skvarla Penn State University	Extension in Action: Tales and research from the Penn State Insect ID Lab
Apr 3	ASB Meeting	Jacksonville, FL
Apr 10	Dr. Mostafa Rahnema University of Kentucky	Telomeric transposon elements involvement in the <i>Magnaporthe oryzae</i> genome evolution
Apr 17 or 24	BOGS Speaker	TBA
May 1	BIOS Awards Day	SCIBD Atrium

**Please join us at 11:00 for coffee & refreshments.
Seminar begins at 11:15 in Science Building #2221.**
